Profile

I am a hardworking, self taught, and creative person who is always striving to learn more. I love problem solving and learning of new ways to work. I am best at learning on the fly, and do not shy away from a challenge.

Skills

Image creation and editing with Adobe Photoshop and Illustrator

Web design, coding, and implementation from scratch

Responsive design techniques

Web Standards (HTML5, CSS3)

Familiarity with jQuery, PHP, and Javascript

Creation and/or Customization of Web Templates for Joomla! CMS and/or Wordpress

Work Experience

Review Publishing — 2014/2011
Web Intern

Processed InDesign files into XML and HTML files for web publishing for the following newspapers: Philadelphia Weekly, South Philly Review, and Atlantic City Weekly.

Goji Systems — 2014
Web Designer

http://www.gojisystems.com/

Planned a website for Goji Systems, working closely with the owner. Modified a WordPress template he had selected in accordance with our goals. Unfortunately we turned out not seeing eye to eye, but many of the elements I introduced are still present on the website.

Good Leaf Designs — 2011
Web Designer

http://www.abankmusic.com

Developed a website for an independent musician/sound engineer/composer using the Joomla! CMS, HTML and CSS. Envisioned in Photoshop, coded by hand.

Pennsylvania Academy of the Fine Arts — 2011
Office Assistant

Created promotional flyers and posters for school events, distribute marketing materials, assist with events, and general office duties (filing and collating)

NetLogic Solutions   2011
Web Designer

    Began developing a website for a small networking
business, using joomla!, jQuery, CSS, and HTML. The project didn't come
to completion. The website was developed with Dreamweaver, FireWorks
and Photoshop.

Caged Rabbit Productions   2009
Web Designer

    http://www.tavvonreynoldsdesigns.com/
Developed a website for an independent visual artist using HTML and
CSS. Envisioned and coded the website using Photoshop and Dreamweaver.

NetLogic Solutions   2007
Web Designer

    http://www.herbertelectric.com/
Created a website using the program called SwishMax, to setup and alter a
Swishzone template as per their client's specifications. Program was used to
create a flash-based website.
